PLR License

This license covers the “**PLR GPT Package**” when you use it with Private Label Rights.

YOU CAN:

- Edit, rewrite, and reformat the written content in any reasonable way.
- Adjust the GPT docs and prompts for your brand and niche.
- Add your own name, brand, logo, and links.
- Claim authorship under your own name or brand, not mine.
- Use the content in your own funnels, follow-ups, and autoresponders.
- Use the GPT and content inside your paid products, courses, or coaching.
- Use the GPT and content inside a paid membership site.
- Turn parts of the content into blog posts, social content, or other marketing.
- Sell your **finished** version as a digital product for personal use.
- Use your finished version as a bonus, upsell, or order bump.
- Share your finished version with your list or audience as free or paid personal-use access.
- Give access to your team or contractors to edit, customize, and implement it for you. • Let buyers load your branded GPT into their own ChatGPT accounts for personal use.

Your buyers get **personal use only** of your finished version.

They do **not** get PLR or any resale rights.

YOU CANNOT:

- Pass PLR rights to your buyers in any way.
- Sell or give away any kind of giveaway, resell, master resell, or PLR rights.
- List or launch the product as a **public** offer on WarriorPlus, JVZoo, ClickBank, Explodely, or similar sites.
(You may still use WarriorPlus privately with no public listing.)
- Use my name, brand, or picture on your sales pages, covers, emails, or inside your version.
- Claim that I endorse you, your business, or your results.
- Use the GPT or content in any illegal, misleading, or hateful way.
